

**REGENT UNIVERSITY COLLEGE OF SCIENCE AND
TECHNOLOGY**

OFFICE OF THE REGISTRAR

PRESS NOTICE TO ALL

We have taken notice of publications circulating online and in the news media regarding the seizure and auction of some assets of Regent University College of Science and Technology (RUCST).

Certainly, we have some financial obligations towards Obokom Civil Engineering Works Limited in respect of one of the buildings of the Institution. The company and its owner, Nana Obokomata IX has secured a court order against the property, but we are still in discussion with the company and its owner and we expect an amicable settlement soon.

Secondly, the report that RUCST has been auctioned is incorrect. We wish to assure all students, staff and other stakeholders that arrangements are in place to successfully end the semester by June 30th, 2020. The current matter does not interfere in any way with the academic functioning of the University.

Please, stay calm, and rest assured that everything will be resolved shortly.

A handwritten signature in blue ink, appearing to read "Benjamin Zogbator", is written over a light blue rectangular background.

Benjamin Zogbator
Ag. Registrar
